GAINESVILLE, FLORIDA, FRIDAY, JANUARY 29, 1909

TEN CENTS A WEEK

SPEECH OF WILLETT IS ORDERED EXPUNGED

Special Committee Says That It is House's Duty to
Protect President From Personal Abuse.

WASHINGTON, D. C., Jan. 28.—Recommending that the speech delivered in the House last week by Representative Willett of New York, in which the President was severely criticized, be expunged from the Congressional Record, the select committee appointed to consider the speech submitted its report to the House. A letter written to the committee by Representative Willett, urging that his speech should remain on record, accompanied the report.

Declaring that "the consideration of the speech in question involves a consideration of what is and what is not orderly debate in the House," the committee's report defines the privileges of members of the House and limitations of debate. It discusses at length the relationship of the two houses of Congress and the relations which must be maintained between the House or Representatives and the President, in accordance with the constitution.

The report declares that it would seem that the "peculiar constitutional duties of the House in relation to the power of impeaching the President do not preclude a clear line of distinction between that criticism of acts and conduct necessary for performance of the constitutional duties of the House and a criticism merely personal and irritating."

It also claims that it is especially the duty of the House itself to protect the President "from that personal abuse, innuendo or ridicule tending to excite disorder in the house itself and to create a personal antagonism on the part of the President toward the House, and which is not related to the power of the House under the constitution to examine into the acts and conduct of the President."

"Your committee has carefully considered the remarks of the gentleman

from New York," continues the report, "and find that his remarks concerning the President are not justified by any consideration of the constitutional duties or powers of the House; that they transcend proper limits or criticism in debate; that they are destructive of that courtesy, respect and dignity which ought to be preserved, and that they ought not to remain in the permanent official record of the proceedings in the House."

The committee claimed that it was impossible to separate the objectionable remarks from the remainder of the speech, and that the only way to eliminate the remarks considered out of order would be to strike out the entire speech. It cited as a precedent for such action by the House the speech of Robert P. Kennedy, of Ohio, attacking the Senate, made in the House on September 3, 1890, which was excluded from the permanent record.

Willett Sends Letter.

In his letter to the committee Mr. Willett claims that he did not transcend the rules of the House, but that he was entirely within his rights to make the speech under the order of general debate. "Freedom of speech has always been held so sacred," he declared, "that the utmost latitude has been allowed in debate, and I respectfully submit that to strike my speech from the record in this instance will establish a precedent extremely dangerous."

The resolution recommended by the special committee for adoption of the House reads:

"Resolved, That the speech of Mr. Willett printed in the daily Congressional Record of January 18, 1909, contains language improper and in violation of the privileges of debates, and that the same be stricken from the permanent record."

HOLLOWAY CALLS EDUCATORS TOGETHER

TALLAHASSEE, Jan. 28.—According to the requirements of paragraph 2, section 46, page 19, of the digest of school laws of Florida, Hon. W. M. Holloway, State Superintendent of Public Instruction, will call a convention of county superintendents, high school principals, and others who may be interested in the cause of education to meet at Lake City March 16-18.

Heretofore these conventions have been held at the capital in April, during the session of the Legislature, but Mr. Holloway has decided that an earlier date is desirable on account of the short length of time at the disposal of those whose duty it is to formulate the ideas and suggestions gained at these conventions into bills to be enacted into laws by the Legislature then convened. Usually by the time the bills are ready the Legislature is in its last days of rush and confusion, a state not conducive to a quiet consideration of important measures; so, in order to avoid having matters pertaining to the schools passed over or given but scant and unsatisfactory consideration, Mr. Holloway intends that this time everything shall be in readiness before the 6th of April, 1909.

It is of the most vital importance that the coming Legislature shall recognize existing school conditions and bring the State out of the chaos produced by the recent supreme court decision.

MELROSE NEWS.

(By Observer.)

MELROSE, Jan. 28.—Right Rev. E. G. Weed, assisted by Rev. C. B. Hedrick, held services at Trinity church on Sunday. Two large and appreciative congregations listened to the most excellent sermons preached by the Bishop. During the offertories Mr. and Mrs. A. E. Pearsall rendered "The Lord is My Light," by Allison, and "Praise Ye the Lord," by Vordl. The church was beautifully decorated. During his visit the Bishop was the guest of Mr. and Mrs. J. A. Rammel.

Attention is called to the Masonic supper at the Huffman House at 6:30 p. m., on February 5th. The public is cordially invited.

The martins arrived on January 21, about ten days earlier than last year.

The wooden drains on Belamy avenue, near the postoffice, and on Pearl street, are being replaced by clay tiling. A much needed improvement.

Service will be held at 11 a. m. on January 31st at the Lutheran church.

Newly registered at the Huffman House are Mr. and Mrs. F. K. Black of Boston, Mass.

Miss M. McLaine of Coreopolis, Pa., is the guest of Mr. and Mrs. J. A. Waters.

JUDSON ITEMS.

JUDSON, Jan. 28.—After a great many changes and moving around everybody have settled down to work plowing and fixing lands for another crop. J. F. Stockman of Trenton has rented Mrs. Carter's house here and has moved into it; C. H. Bagley has rented and moved to the Ira Carter place; John Quincey has moved to the Brown place; Doc Thomas of Dutton and his mother are going to farm with J. H. Johnson. G. A. Perryman has moved to the Hussey place; J. J. Palmer moved away from there to High Springs to work with his father, J. J. Palmer, Sr.

Dr. Ramond Sanchez has taken himself a wife, a daughter of C. W. McElroy, and the couple are living with his parents, Mr. and Mrs. A. B. Sanchez.

The dry weather prevailing here has caused wells and ponds to go dry. The lands are getting hard to break, and gardens are dying for want of rain.

James Coleman and his son-in-law,

JUROR ADMITS THAT HE WAS DRINKING

Judge in Carmack Case Orders Officers to Stop
Giving Jurors Whiskey.

NASHVILLE, Tenn., Jan. 28.—The first day of the second week of the trial of Col. Duncan B. Cooper, Robin Cooper and John D. Sharpe for the slaying of former Senator E. W. Carmack closed yesterday evening with no further progress in the selection of the jury. Deputy sheriffs are riding the county to summon the third venire of 500 talesmen which will report Friday.

But if no progress was made in completing the jury, it at least was not depleted. Judge Hart spent the day hearing testimony as to the competency of Juror Leigh, and in formulating a definition of drunkenness. About sixty witnesses were examined on both sides. Those for the State were quite positive that Leigh was drunk when selected and was an habitual drunkard.

One man swore that Leigh had declared that Carmack was a "blank blank, and should have been killed long ago." Others said he had expressed the opinion that Sharpe was innocent and that the Coopers were justifiably provoked.

On the side of the defense the witnesses admitted Leigh was a drinking man, that he had taken "a few" the day he was chosen on the jury, but they insisted that he was not drunk within the definition of Judge Hart—that is, that he was not making a public nuisance of himself.

R. H. Sherrin, a member of the grand jury called by the defense, thought Leigh was sober on last Wednesday.

On cross-examination he vigorously denied that after he had gone on the bond of former Sheriff Cartwright, ar-

rested for perjury in connection with this case, he had said "never mind, Tom, this will have to come before me in the grand jury room."

After both sides had closed, Judge Hart called Juror Leigh, explained the charges to him and told him his privileges.

"I was drunk on Tuesday," Leigh promptly agreed, "and also on Wednesday morning, the day I was selected. I never said Carmack should have been killed long ago."

He said he had declared a belief in Sharpe's innocence, but denied saying anything about the Coopers. On cross-examination he qualified his admission of drunkenness and declared what he meant was that he "was a little drinking" those days.

"You mean you were under the influence of liquor the day before you were selected and on the day itself?"

"Yes sir."

"But not drunk?"

"No sir, when I'm drunk I don't know anything."

He admitted that he had been given two drinks a day since being on the jury.

The court ordered Leigh returned to the jury room until his case was decided, and he was advised "to cut out" the two little drinks a day hereafter. Attorney-General McCann asked that an order be entered prohibiting the serving of liquor to the jury and the court so ordered except in the case of Juror Whitworth, whose physician prescribed it. Judge Hart then said he would listen to discussions on the case today, at which, too, these charges against Juror Jackson will be considered.

The Anti-Japanese Bills Are Postponed

SACRAMENTO, Cal., Jan. 28.—Legislation against the Japanese was temporarily put aside by the State Legislature yesterday, as a result of an agreement between President Roosevelt, Governor Gillette and the leaders of both houses. Assemblyman A. M. Drew agreed, after a conference with the Governor, to amend his anti-alien bill. Grove L. Johnson was not willing to postpone action on his Japanese bills, but a motion to put all the measures over for a week prevailed with little opposition. The Governor received the following telegram from the President yesterday:

"I must again express from the standpoint of all our people the appreciation of the great service that you are rendering. I have absolute and entire faith in the judgment and patriotism of the people of the great State of California, and I know that they will support you. My letter is already on its way to you, and you make it public whenever you desire."

Senator Marc Anthony introduced in the upper house in the morning a joint

resolution calling upon Congress to request that the Japanese consul-general at San Francisco be recalled by his government on the ground that he officially had attempted to influence the action of the California Legislature.

The alleged offense of the consul was that he had called upon Governor Gillette and asked him to prevent the enactment of anti-Japanese bills pending.

Would Ignore Resolution.

WASHINGTON, Jan. 28.—According to Senator Lodge and other members of the Senate Committee on Foreign Relations, Congress would not take cognizance of a resolution which State Senator Anthony introduced in the California Legislature, calling upon Congress to request the recall of the Japanese consul-general at San Francisco. It is asserted that the only manner in which the Government could accomplish the recall of a foreign consular officer, is for the President to cancel his exequatur.

Will Be Brought Up.

The question of paving West Main street with vitrified brick will be brought before the City Council at its regular meeting on Monday night.

It will be remembered that this work has already been ordered by the council, but for some unknown reason there has never been anything done beyond a little surveying by the railroad officials. Property owners interested will try and get some action taken by the council at once.

A Boy's Tragic Death; The Suicide of Woman

TAMPA, Jan. 28.—A most deplorable accident happened on one of Tampa's business thoroughfares yesterday, which resulted in the death of a youth by the name of Parola Parlay, a delivery boy for the O. Falk & Co. dry goods house, and the sole support of his mother and two smaller children. The boy was riding a bicycle on his way to deliver a package to one of the city's boats for the firm he is employed by, when he ran into a horse driven by Mr. Frank Russell, manager of the Economical Drug Store, throwing him heavily to the ground and knocking him unconscious. Mr. Russell jumped from his vehicle, and picking the insensible boy up conveyed him to Dr. Grantham, when it was discovered that intestinal injuries of a most serious character had resulted. The boy was then conveyed to the Emergency Hospital, where he died four hours after the accident occurred. Mr. Russell, though not at all to blame for the boy's colliding with his horse, was greatly shocked and sorrowed by the accident, and generously

offered to pay all attentions to the lad and his entire funeral expenses. The mother is frantic over the death of her 15-year-old boy, who industriously worked to support her and his little brother and sister, their father having some time ago deserted his family and left them in destitute circumstances.

Committed Suicide.

Yesterday at 10:30 o'clock a handsome woman known here as Trixie Brown, died from a dose of laudanum which she took Monday night at the house of Mabel Fuller, where she has been living for some time. It is said the drug was taken immediately after a quarrel she had with a man, who is here to run some of the novelty features on the State Fair Range. Brown is said to be an assumed name. The girl, who was very handsome, is said to be of an excellent family, well-known in Atlanta. Her relatives in that city have been communicated with, but up to this time no word has come from them, and the unfortunate woman will probably be buried here.

Played in Micanopy.

The caste comprising "Charlie's Aunt" left yesterday afternoon by private conveyance for Micanopy, where they played last night to a large and enthusiastic house, being

composed of citizens from many of the places adjacent to Micanopy.

GUILTY ONES SHOULD RECEIVE PUNISHMENT

ONE HORSE ALREADY KILLED BY
ACTION OF THESE BRUTES.

Take People's Horses and Drive Them
Unmercifully While Owners
Attend Conference.

Complaint has again been made to The Sun concerning the malicious way in which several of the boys of the city take people's horses and drive them while they are attending the sessions of the Bible Conference.

Last season a prominent citizen of North Gainesville lost a valuable animal in this manner. The guilty parties took charge of the animal and drove him severely one cool night and returned him just before the Conference closed, with the result that the horse, being exposed after the hard drive, contracted cold and afterwards had to be killed.

This practice has again been indulged in, and on Wednesday night the performance was repeated, but no ill-effects have yet been noticed. However, it is a practice that should be stopped at once.

The officers should take special pains to apprehend the guilty parties that persist in this practice and see that they get the full penalty of the law, and then they would doubtless let other people's horses and buggies alone.

The North Gainesville man is quite certain that he knows the guilty ones, and the officers will possibly learn something that will benefit them in making the catch without delay.

PORTLAND, MAINE, CHILD Ill, Weak and Emaciated, Re- stored to Health by Vinol

"Our little daughter, six years of age, after a severe attack of the measles, which developed into pneumonia, was left, pitifully thin, weak and emaciated. She had no appetite, and her stomach was so weak it could not retain food. She lay in this condition for weeks, and nothing the doctor prescribed did a bit of good, and we were beginning to think she would never recover.

"At this time we commenced to give her Vinol, and the effect was marvelous. The doctor was amazed at her progress, and when we told him we were giving her Vinol, he replied, 'it is a fine remedy, keep it up.' We did so, and she recovered her health and strength months before the doctor thought she could." J. W. Flagg, Portland, Me.

Vinol cures conditions like this because in a natural manner it increases the appetite, tones up the digestive organs, makes rich, red blood, and strengthens every organ in the body.

VINOL is sold in Gainesville by W. M. Johnson, Druggist.

WILL OPEN BUSINESS BY FEBRUARY 15

BUILDING NEARING COMPLETION
FOR WHOLESALE GROCERY.

Owing to Central Location Firm Will
Likely Do an Extensive Business
With Retailers.

The Hartsfield Grocery Company will be ready to open their new wholesale business here about February 15th.

This company, who have been a long while in this particular line, come from Moultrie, Ga., and being men thoroughly experienced in the line they are to follow, it is expected that they will do a tremendous business out of this section, owing to the central location. In fact, there is nothing but the freight rate that will interfere with them doing a leading business in this section, which was for many years handled here by other wholesale concerns, but who were finally compelled to remove to Jacksonville.

The building to be occupied is now nearing completion and the finishings are being placed to the building, so the new firm will be ready to open up not later than the 15th of February.

For the present the company will have two local representatives to represent them here and on the road, and a good business is anticipated by the new firm.

LAMB ENTHUSIASTIC OVER TROLLEY LINE

SAYS THAT WORK WILL COM-
MENCE WITHIN SIXTY DAYS.

He Personally Knows That the Two-
Million-Dollar Bond Issue Has
Been Floated.

"The proposed trolley line from Gainesville to Lake City via Worthington Springs is an assured thing," so declared A. G. Lamb of the latter place to a Sun reporter Thursday.

He stated that there was not any further doubt about the matter, for he personally knew that the mammoth bond issue of two million dollars had been successfully launched, and work would commence on the buildings and damming of the plant within the next sixty days.

He says that sufficient power will be secured to furnish power to operate all the factories and trolley lines that the company would build for some time to come, and that their first venture would be to branch out for this city.

Realizing that it would prove a big thing for Worthington, he has made arrangements to meet the demands and is already enlarging and making many needed preparations and improvements in his hotel property there, and besides is having another larger and more commodious bathing pool built which will be used as a combination pool, while the old one will be used exclusively by the ladies and children.

A large auction sale of lots will occur there next Wednesday, and he has made arrangements to give a dance at his popular hotel on Tuesday night preceding the sale, having secured fine music for the occasion.

He is a "live one" and says that the people of Worthington are also alive to the situation, as everyone there is endeavoring to make the place the representative community that it should be.

Have You Heard of Hyomei for Catarrh, Asthma and Hay Fever.

If you wheeze or sneeze, hawk or spit, snuffle or blow, something is the matter with the membrane of your respiratory tract, and you need Hyomei.

And you need Hyomei because it will cure you of any catarrhal or inflammatory condition that exists. It isn't a stomach medicine, or spray, or douche, but a very pleasant, healing, antiseptic balsam, from the eucalyptus forests of Australia. You breathe this balsam air through a small, hardy rubber inhaler, and it reaches every nook, corner and crevice of the membrane, and promptly kills the catarrh germs.

J. W. McCollum & Co. will sell you a complete Hyomei (pronounced High-o-mee) outfit for \$1.00, on the money-back plan.

"The use of Hyomei cured Mr. Cutler of catarrh in 1904. He has strongly endorsed the use of Hyomei in many instances, and we are glad to go on record regarding this marvelous catarrh cure and endorsing its use."—Mrs. A. Cutler, 201 Post avenue, Battle Creek, Mich., Oct. 12, 1908.

OWENS GOES TO JAIL ON CHARGE OF MURDER

SEVERAL WITNESSES EXAMINED
AT PRELIMINARY THURSDAY.

Bond Denied Man Who Has Tried to
Kill Others While He Had
His Freedom.

R. H. Owens, the man who killed Smith and Musslewhite at Jonesville on Tuesday morning, was given a preliminary hearing before Justice Ira J. Carter at Newberry on Thursday and sent to jail without bail on the charge of murder.

Evidence introduced at the hearing was such that there was no other course to pursue, and the man will now be required to spend his time in prison until the next term of circuit court, when the grand jury will take up the case for hearing.

Owens is very unconcerned about the shooting and still claims that he acted in self-defense in killing Musslewhite, and maintains he was protecting his wife when he shot Smith. He feels confident that he will come clear at the final hearing.

The State's interests were looked after by Judge Syd L. Carter, who went over to Newberry in the absence of Attorney Rivers.

DR. SLEDD MADE AN ABLE ADDRESS

TO STUDENTS OF NORMAL AND
INDUSTRIAL SCHOOL.

The Event Was Celebration of Fourth
Anniversary of the Institution.
Dr. Sledd's Remarks.

The Pensacola Journal of the 27th inst. contains the following regarding an address delivered by Dr. Andrew Sledd, President of the University of Florida, upon the occasion of the fourth anniversary of the founding of the Pensacola Normal and Industrial School Tuesday night:

"A large audience was in attendance last night at the Pensacola Normal and Industrial School, colored, Rev. G. W. Lewis, principal, the occasion being in honor of the fourth anniversary of the institution.

"The exercises were opened by the principal, the only speaker of the evening, Dr. Andrew Sledd, president of the University of Florida, at Gainesville, being introduced by J. H. Sherrill, secretary of the local Y. M. C. A. "In introducing the speaker, Mr. Sherrill said:

"I know that God must be with you in this work. When I see your school as it is today, compared with its humble beginning, I know that God is with you.

"Leaving the race question out, you have a school here that is a credit to the State of Florida. You have made a splendid beginning, but remember it is only a beginning. You will continue in your good work as long as you are loyal to your leader.

"Don't let any little jealousies arise among you. Your present leader is the man who will do wonderful things for you."

"When Mr. Sherrill introduced Dr. Sledd tremendous applause greeted him. Dr. Sledd spoke in part as follows:

"I thank you for your cordial welcome," said Dr. Sledd. "I believe, with Mr. Sherrill, that you have done well and that you have set a pace for the entire State. I esteem it a privilege to be here tonight.

"I believe in education for all people in accordance with their capacities and needs. Application and acquisition of useful information to the promotion of our own welfare and promotion of the race is the first element of education. When art for art's sake and learning for learning's sake become the rule, we are in the process of retrogression.

"The doorway of education is the doorway for any race. I believe in education for all people—every creed, every race. God forbid that any man in this land of the free should say the door of opportunity is shut in his face.

"There is a common foundation for education. We have not been taught enough of what we are and what our surroundings are. The disease of 'book worm,' among school children, is practically unknown among the teachers of the State because it is not in the curriculum. Did you ever hear a school teacher tell pupils that consumption can be cured?"

"Speaking of diseases which are said by the scientists to be incurable, Dr. Sledd said: 'Any doctor who says he can cure cancer is a fakir—refer him to me.

"One of the first things we, as teachers, should teach the young, is the principle of pure air and physical exercise. These are fundamental things in education, but you don't hear teachers telling pupils about them—although they ask questions in Latin and also hard sums—plus this and plus X, Y, Z.

"I don't know anything more ridiculous than to hear a pupil quote Latin and can't understand an English translation of the question.

"In my young college days if you asked me about the ancient walls of Rome, I could draw a map; but ask me about the boundary lines of my own county in Virginia and I could not tell you a thing about it.

"Education was made for man, and not man for education. 'Each according to his needs' should be the motto over every school door. If a man wanted to be a carpenter, he must study carpentry."

"Mr. Sledd said some people had an idea that if they were educated they would have a 'soft' time in this world. He said: 'If you want to find a soft

place in this world, put your hand

"Referring to the negro race, Dr. Sledd said:

"There are not a few of your race who spend nearly everything on your back, and you don't care how you get it.

"Dignity of character is greater than what you wear."

"A rising vote of thanks was tendered Dr. Sledd for his address."

The old Oak Hall building now situated at the foot of East Main street is to be remodeled and added to at an early date.

It is understood that B. F. Hampton, the owner, has decided to add eight more rooms to the building and move it to a point fronting on Magnolia street.

The house when completed will be used either as a boarding-house or rooming apartments, and work will probably be commenced at an early date on these proposed changes.

L. M. McCormick is also contemplating making additions to his large house, corner East Main and Magnolia streets.

A Religious Author's Statement.

For several years I was afflicted with kidney trouble and last winter I was suddenly stricken with a severe pain in my kidneys and was confined to bed eight days unable to get up without assistance. My urine contained a thick white sediment and I passed same frequently day and night. I commenced taking Foley's Kidney Remedy, and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Kidney Remedy. J. W. McCollum & Co.

When Waking Up.

Here is a bit of information it will pay you to keep ready for reference, though you will perhaps turn up your nose at it at the first reading: "How to wake up and wake up fully and quickly. Most people prefer not to wake up in the morning—that is, they think of the pleasure there would be in just five minutes' more of sleep if only that alarm clock had not sounded its warning. Of course you have to get up, and if there is really anything that will make the job easier and more pleasant you will want to know about it. Doctors have long ago agreed that dullness on first awakening in the morning is due to sluggish circulation of the blood in the brain. This can be quickly overcome by massaging the neck in the neighborhood of the jugular vein, thus stirring the blood to life and action. Rub your neck well on both sides and drowsiness will leave you. Try it."—New York Times.

Happy Either Way.

The old Duke of Norfolk, who was a very shabby dresser, met a privileged friend in Bond street, London. Said the privileged friend, a military man of the premier duke's own age: "Why, duke, what's come to your clothes? You look as if you had raked over your rag bag to find them!" The duke replied, with a shrug: "What does it matter what I wear here? No one knows me!" A few months later the same friend, himself always a well dressed man, met the duke again, pottering about in the neighborhood of Arundel, the delightful Sussex village under a hill crowned by the castle from whose name the eldest son of a Duke of Norfolk always takes his "courtesy" title—Earl of Arundel. "Why, duke," said his friend again, "what's the matter with your clothes?" The duke shrugged his shoulders again. "What does it matter what I wear here? Every one knows me!"

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems,

operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

NEWS FROM ALL PARTS OF FLORIDA

At a recent public meeting in St. Petersburg it was found that every State in the Union was represented by some person except California.

The truckers of Coleman are highly elated over the cabbage crop, as they have the best crop of the best cabbage they have ever raised, and some of the growers have cut 150 to 200 crates per acre, and are not through yet.

At a recent meeting of the board of trade of Ocala it was decided to buy 1,000 copies of the special edition of The Florida Fruit and Truck Grower. This edition contains full information of the first Marion County Fair, and contains an interesting account of the resources of that county. The book will be sent on request to anyone desiring information of that section.

Two entire city blocks have been selected and set aside in Pensacola for a public playground for the children and will be fitted up at once for gymnastics and open-air games. They are situated on North and East hills respectively. All of Saturdays and after school hours on other week days these grounds will be thrown open to the children. It is in accordance with the spirit of the age to endeavor to raise healthy children.

The people of White Springs are rejoicing over the news received from Representative Frank Clark that a resolution had passed Congress authorizing a survey of the Suwannee river from White Springs to the Gulf, with a view to determining the deepest feasible channel that can be obtained for the distance named, and to report a project therefor and an estimate of the cost. This is a move that means much to the future welfare of that place. An outlet to the Gulf would increase the popularity of the resort 100 per cent and would result in a corresponding increase in business. The people of that place should show their appreciation of a move of this kind and co-operate fully in the undertaking.

Some Troubles of a Pianist.
Harold Bauer, the pianist, has had some curious experiences during his travels. While playing in Barcelona he was challenged to fight a duel by an excited member of the audience whom he had reproved for disturbing the recital by his noisy conduct. On another occasion, in Italy, he had to be carried through an underground tunnel to escape the attentions of frantic admirers. One of his most extraordinary experiences was in Russia. It was in a little town near Moscow, and in the middle of his performance the pianist was arrested, by the police on the grounds that he was obtaining money under false pretenses. The police action was based on the grounds that a Hungarian dance appeared on the program and that there were no dancers. They overlooked the terrible fact that Mr. Bauer had played two marches without a single soldier being present.—Cincinnati Tribune.

A Queer Lesson.
"On the slow and cheap ships," said a purser, "the souvenir thief does no harm, but on a famous Atlantic liner, where records are broken and tip-top prices abound, the amount of stuff that disappears is shocking."

"Only things with the boat's name on—champagne glasses, ink wells, curling tongs, buttonhooks, and so forth. And what are we to do about it?"

"We had an American peeress aboard last voyage. The day we reached New York a stewardess came to me and said:

"Oh, Mr. Meet, I just seen Lady Blank's cabin trunk, and she's taken two of our finest silver ink wells!"

"Here was a quandary, eh? The captain was called in, and he settled the matter in the unsatisfactory way such things are usually settled."

"We must teach Lady Blank a lesson," he growled. "At the same time scandal must be avoided." He thought a moment, then said to the stewardess: "Take one of the ink wells and leave the other. That'll show her!"—Philadelphia Bulletin.

Crafty Master Fox.
A fox was one day seen coming out of a pile of stones near the water-side. He hid in the heather for awhile and then pushed out something on the water, which proved to be a bunch of moss. The wind took it into the middle of the lake and blew it past some ducks sitting on the surface. Having watched his venture for perhaps ten minutes with apparent satisfaction and observed that it neared the ducks without arousing their suspicions, our friend began to collect another and larger bunch of moss, which he allowed to float in the same direction, but this time he swam behind it, taking care to show only his eyes and nose above water. Just as it was passing the group of ducks he made a sudden dive, pulled down a bird and swam back to shore under water. Arrived there, he carried the duck to the pile of heather, where his wife and daughter were no doubt waiting to enjoy the fruits of his labors.—"Forty-five Years of Sport."

THE PLOT OF A PLAY.

How Sardou Came to Write "Les Pattes de Mouche."

Sardou sat working at a scenic adaptation of Voltaire's "Candide," and it hung fire not because there was no prospect of a dinner, but because his pipe was empty and he had not a penny wherewith to buy tobacco. Suddenly on opening a drawer of his table he uttered a cry of joy at the sight of five or six tickets of a wine company which gave its customers a voucher for 20 centimes for every bottle purchased. A quarter of an hour afterward he was the happy possessor of a silver franc piece and some sous besides.

Picking up a scrap of paper off the sanded floor of the tobacco shop, he was about to light his weed when the words "Marie Laurent" caught his eye. The "unconsidered trifle" turned out to be the fragment of a letter from the well known actress to her son Charles. Sardou put his find in his pocket, but on his way home his plot weaving faculties, stimulated by the fumes of the tobacco, at once reasserted themselves.

"This is the innocent letter of a mother to her boy," he said to himself. "Supposing, however, it had been the letter of a woman to her lover and, falling by a similar accident into the hands of the woman's husband, wishing to light his cigar?"

The suggestion led to his play "Les Pattes de Mouche."—London Chronicle.

A HUMAN GIBRALTAR.

The Story That Is Told of the English Colonel Burnaby.

In the biography of Colonel Fred Burnaby there is a characteristic story, told by his friend Lord Binning, of that soldier of herculean frame and reckless courage:

We were engaged in a football match on the green inside Windsor cavalry barracks, and the verandas were crowded with onlookers as the colonel, dressed for London in frock coat and tall hat, with a cigar in his mouth, came out of the officers' quarters and proceeded slowly across a corner of the ground, apparently oblivious of the fact that a match was in progress at the time. At this moment our fullback, a gigantic Yorkshireman named Bates, who must have weighed nearer fifteen than fourteen stone, charging impetuously for the ball, dashed full into Burnaby. The impact was terrific, but while the Yorkshireman, hurled backward by the shock as though he had collided with a mountain, lay gasping on the ground, neither Burnaby's hat nor the angle of his cigar was in the smallest degree disturbed. In fact, he scarcely seemed to realize that a collision had taken place. When he did so he removed his cigar from his mouth and, with his pleasant smile, said, "Dear me, I do hope I am not interfering with the game." The shout of delight which went up from the verandas was a thing to remember.

Studying the Crowd.
"There doesn't seem to be any difference between a crowded train in the morning and a crowded train at night, does there?" queried a subway traveler of his companion. "But I could distinguish one from the other even if I had no idea of the hours."

"Ask the guard?"
"No. All you need to do is to measure the buzz of conversation. In the morning, when the crowd is fresh and on the way to business, the conversation is at least ten times in volume what it is at night, when the crowd is tired and on the way home. Oftentimes at night I've been in a crowded car for ten minutes without hearing a sound save the rattle of newspapers and an occasional cough. That same crowd in the morning would be full of dialogue, punctuated here and there with laughter."

"It's just a wee study in human nature, that's all."—New York Globe.

DOING THEIR DUTY

Scores of Gainesville Readers Are Learning the Duty of the Kidneys.

To filter the blood is the kidneys' duty.

When they fail to do this the kidneys are sick.

Backache and many kidney ills follow;

Urinary trouble, diabetes.

Doan's Kidney Pills cure them all. Gainesville people endorse our claim.

Mrs. V. E. Spence, 201 W. Arlington street, Gainesville, Fla., says: "It would be hard to describe how I suffered from a weak and aching back. At times the pains were so intense that I could not get up or down. I was also troubled by rheumatism and different parts of my body became stiff and lame. A friend finally advised me to try Doan's Kidney Pills and procuring a box, I began their use. I am glad to say that they lived up to representations, removing the pains and disposing of the rheumatism. I can honestly say that Doan's Kidney Pills did me more good than any medicine I had previously taken."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Brain and Muscle.

According to Miss Loane, the author of "From Their Point of View," more men are tramps and more women are miserable housewives if married or underpaid slaves if single because they cannot or will not use their brain power than because they are too lazy for hard bodily labor. The amount of purely unintellectual drudgery diminishes every year and the demand for intelligent workers increases.

The author had one woman patient, a worker among London poor, a chronic sufferer, who managed to keep house and children in far more perfect order than vigorous neighbors always scrubbing and scouring. She was once asked how she contrived to do this, and she replied:

"I makes my mind do three parts of it. It isn't so much what I does, but what I stops from having did."

You would not delay taking Foley's Kidney Remedy at the first sign of kidney or bladder trouble if you realized that neglect might result in Bright's disease or diabetes. Foley's Kidney Remedy corrects irregularities and cures all kidney and bladder disorders. J. W. McCollum & Co.

Last year over 1,700 political prisoners were sentenced to death in Russia and the number actually executed averaged rather more than two for every day of the year. These figures do not include the number secretly put to death or that died in prison of ill usage. Yet Russia seeks to pose as a civilized country.

There is no such thing as a neutral character or a moral blank. One may be weak or strong in character and moral tendencies, but every person is something, however little. We are either sowing that which produces a harvest of corruption and failure, or that which brings forth light to illumine and salt to preserve.

Freak bills are making their appearance in some of our legislatures with all their old-time regularity. This is one of the penalties the public has to suffer for the privilege of self-government and it is always patiently endured, and all the more as not unoften what may be a freak bill today may turn out to be a wise and desirable one tomorrow.

Like Banquo's ghost, there are some things in the social world that will not down, much as we desire it. Among them are the Thaw case, the Duke of Abruzzi, and the squabbles between Anna Gould's ex-husband and present husband. We would like to forget them but the fervid imagination and persistency of some newspapers will not let us.

Funeral sermons and tombstones are usually alike in the eulogy they pay the departed. Some of the dead, if they could only come back and hear and read what is said or written of them, would not know themselves. No wonder a spirit when asked said that he was perfectly happy because he was amazed and delighted with what was written on his tombstone.

Temperance in Canada has not made the same advance it has in many of our States, but that it is making steady progress is seen from the temperance victories recently gained in Ontario under the local option law. Thirty-five years ago the population of that province was about 1,650,000 and the number of saloons was 6,000. Today the population is about 2,200,000, but the number of saloons has decreased to 2,474.

Turkey has decided to accept the \$10,000,000 which Austria-Hungary offered her as indemnity for Bosnia and Herzegovina, and in doing so she shows good sense. The settlement brings relief to the whole situation in the near East and probably insures peace. What the Bosnians and Herzegovinians think of being bought and sold without their consent is not recorded, but most likely they care little as it just means a change of masters.

It is possible that the throne of Portugal may go begging. The health of the youthful king is so precarious that his abdication or early death is not improbable. His uncle, who is heir apparent, declares that in either event he will not ascend the throne. There is a fine prospect for some

CURRENT COMMENT.

The Virginian Pilot says: "We never thought Rutherford Hayes was much of a President, but it cost the people just one-tenth of the money to support him in the White House that Mr. Roosevelt now finds insufficient. Are we getting ten times as much for our money?"

The New York World says: "If California undertakes to prohibit all foreigners from owning land in that State it should be prepared to strike a severe blow at the mining, fruit and shipping industries of the State, which have been greatly aided by foreign capital and foreign settlers. The mere suggestion of such legislation is silly."

The Louisville Courier Journal says: "If Mr. Taft wishes to ride in automobiles after the Fourth of March he will have to pay for them out of his own pocket, although the Senate is willing to provide horses for him out of the public funds. He can also have the services of plenty of asses in both houses of Congress, if he should care to pay for them out of the public patronage."

The Philadelphia Record says: "The enormous expense of keeping war vessels in repair suggests to Mr. Tawney, of the Appropriations Committee, that perhaps he had better stop building more battleships until we can get those we have into good order and learn how to build them and run them so that they will not be constantly tied up to the repair shops. The sixteen world-encircling battleships are not disabled yet, but it is expected that it will cost millions to put them in good order after they shall reach home."

The New York Times says: "Again, if the White House costs too much, as is quite possible, measured by the standard of economy and efficiency maintained in private business, there is no reason why its administration should not be reorganized and placed in competent and responsible hands, if these can be secured. That would be a practical and sensible thing to do, and doubtless would be a relief to the incumbent of the White House for the time being, so long as his comfort and tastes were reasonably considered."

The Montgomery Advertiser says: "The man who has to be watched to see that he does his duty is one who will be cunning enough to be corrupt no matter how he is watched. When the people of the United States feel that they must keep detectives on the track of their public servants, the republic has sunk lower than its founders ever dreamed that it would. Our Government is essentially a representative government. When we admit that we can not find men to discharge the duties of representative without espionage we admit the failure of Republican government."

The Baltimore Times says: "It may be observed that while the country is agreed as to the necessity of preserving our national resources and while the recent campaign of education has awakened a really earnest and aggressive public feeling on the subject, there is a lack both of agreement and of specific plans as to how these results shall be accomplished. What has been done is to a large extent nugatory. With all the talk about forest protection, last fall witnessed many of the worst forest fires which have ever devastated the timber regions of this country. Notwithstanding the prosecutions for land frauds, the cases undisposed of outnumber many-fold those which have been tried. That Mr. Roosevelt should make the most of what his administration has done along such lines is, of course, natural, but cannot conceal the magnitude of the task before his successor."

Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces of the system.

A woman traveled all the way from New York City to visit friends in Hamilton, Ontario. On reaching Niagara Falls she found that owing to the Canadian restrictions of the cattle embargo she would be unable to take into that country her pet Angora cat which had accompanied her. Sooner than part with it she returned to New York without proceeding to Hamilton. One may imagine the feelings of her Canadian friends on learning that the company of the cat was preferred to theirs.

In a week or two Cuba will again be housekeeping on her own account and everybody wishes her success. None the less one cannot view her future without a certain misgiving. Many of her leaders seem to be actuated with the spirit of selfish ambition rather than that of patriotism, and the Cubans as a whole do not seem to realize that self-government is a serious problem calling for a very large amount of wise self-restraint and patriotism in order to make it a success.

It is good to see so many of our governors in their messages to the legislatures making the need of better laws for safeguarding the life of the worker so prominent. The enormous number accidentally killed and wounded in our mines, factories and on our railroads is a scandal and indicates that human life is held too cheap. Statistics show that peaceful employment in some industries is more dangerous than facing an enemy's bullets.

Mrs. Fyffe Declined.
Some years ago it was decided by the navy department that the presence of the wives of the naval officers at the Asiatic station detracted too much from their official duties. So a general order was issued to the fleet directing that the wives be sent home. Admiral Fyffe, who was in command of the fleet, received the order in due time, and it came back to the navy department indorsed as follows:

1st. Indorsement.
Asiatic Fleet, Yokohama, Japan.
(1) Respectfully returned to the secretary of the navy.
(2) I have delivered this order to Mrs. Fyffe, and she refuses to go.
(3) Further instructions are requested.

NATURE SPARES

The Stricken Rose From Grief.

What a fortunate provision of nature it is, that deprives the rose of mental suffering; for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable store-house of pleasing rewards, for those who seek her aid. In the years gone by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbro's Herpicide absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

HERBINE

The Popular Liver Medicine Will Keep You Well

A GUARANTEED CURE for all diseases produced by TORPID LIVER and IMPURE BLOOD. Do not fill your system with Arsenic, Calomel and Quinine. They act as rank poisons which vitiate the blood, debilitate the system, and leave a trail of bad symptoms which require years to obliterate. HERBINE is purely vegetable and contains no mineral or narcotic poisons, is absolutely harmless and is the simple remedy of nature. It carries off all poison in the system and leaves no injurious effects.

CURED BY HERBINE AFTER OTHER REMEDIES FAILED

Mr. L. A. Hicks, Iredell, Texas, says: "I was sick in bed for eight months with liver trouble, the doctor seemed to do me no good. I was told to try Herbine, and it cured me in a short time. I cannot recommend this wonderful medicine too highly."

GAINESVILLE, —THE— University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

NOTES OF INTEREST
FROM HIGH SCHOOL

Today closes the first half of the term. The students are in the midst of the monthly examinations.

New students continue to enter from week to week. The enrollment is large and the average attendance is good and improving. More than one hundred pupils have neither been absent nor tardy during the term. The records of many others are almost as good in this respect. The school spirit is gradually on the ascendancy.

The literary society of the high school department is rapidly becoming one of the most enjoyable and instructive of the school exercises.

Some of the speeches delivered last Friday afternoon on the subject of the introduction of athletics into the high schools would have done credit to much older and more experienced heads. Every part on the program was well rendered. The society welcomes visitors.

The school is very much in need of a better library. One of our public spirited citizens, a man who is very much interested in the welfare of our school, has called our attention to a set of books, the Editor's Encyclopedia, sold by subscription at \$190 per set, but offered to the Gainesville school for \$35. It is just the set of reference books which we need in the school library. The pupils have subscribed about ten dollars; Geo. P. Morris has voluntarily subscribed \$2.50 and Mrs. Dean \$1. If there are others who are interested and wish to help us procure this much needed set of books, let us know what you are willing to contribute.

Mr. Hartsfield, who is soon to establish a wholesale grocery store in our town, has already proven himself a valuable addition to the citizenship of Gainesville. He came all the way to school to explain the absence of his son on the day before and remained with us for chapel exercises. He is intensely interested in schools.

First grade A, having more than fifty on roll, cannot enroll any more this term. Miss Sanchez deserves much sympathy and the co-operation of the parents of her pupils. She has at least twice as many beginners as any teacher can do justice by.

Please remember that the school is represented in the piano contest.
